

«Business, Contracts and Property» (32 ECTS)

Description

This profile imparts broad knowledge and comprehension in the different areas of the law dealing with business, contracts and property. The courses offered include general observations (e.g. liability and insurance) as well as specific analysis. A direct connection between the questions of private law and the regulations of the corresponding administrative and tax law is made.

This profile is ideal for students wanting to become lawyers, notary publics, members of a civil court, or business consultants.

Requirements

Those aiming for the Profile «Business, Contracts and Property» must earn 32 ECTS- points through a variety of academic achievements (block and semester courses, Master's thesis, research thesis) which count for this Profile.
