

MASTER OF SCIENCE IN PSYCHOLOGY

Starting days Fribourg, 2026

Prof. Valerie Camos

Dr. Anne-Raphaëlle Richoz

Dr. Tanya Tandon

Dr. Christophe Fitamen

Dr. Alain Chavaillaz

Welcome Willkommen Bienvenue Benvenuti

Department of Psychology
University of Fribourg

TODAY'S SCHEDULE

- Structure of the master program
- Study fields
- Short break
- Research groups
- Library services
- Practical information

MASTER PROGRAM

MAIN PROGRAM (MP - 90 ECTS)

Methods (12 ECTS) - TU*

Advanced studies (18 ECTS) - TU*

Psychopathology & clinical psychology
(15 ECTS) - TU*

Practical experience (15 ECTS)

Master exam (30 ECTS)

SPECIALISATION PROGRAM (SP - 30 ECTS)

2 specialisation modules (2*15 ECTS) - TU*

*TU = Teaching Unit

MAIN PROGRAM

*TU = Teaching Unit

MAIN PROGRAM MODULES

MAIN PROGRAM (MP - 90 ECTS)

Methods (4 x 3 ECTS)

Statistical Methods for Master Studies

Research Methods for Master Studies

Evaluation of Psychotherapeutic Interventions

Research colloquium

At least 6 validated ECTS to start the master thesis

MAIN PROGRAM MODULES

MAIN PROGRAM (MP - 90 ECTS)

Advanced studies (18 ECTS)

6 free-choice teaching units x 3 ECTS

Psychopathology & clinical psychology (15 ECTS)

5 free-choice teaching units x 3 ECTS

Practical experience (15 ECTS)

2-month internship 100%

Master exam (30 ECTS)

Research thesis & defence

Not necessarily linked
to specialisation

MAIN PROGRAM MODULES

ADVANCED STUDIES

Fundamental and up-to-date knowledge and understanding of the main areas of psychology and the central themes of the department's research teams

- 18 ECTS
- Only in English

PSYCHOPATHOLOGY AND CLINICAL PSYCHOLOGY

Basic knowledge of the phenomenology, etiology and treatment of the most important mental disorders, or of various aspects of psychological or somatic health at different stages of life

- 15 ECTS
- At least a TU labelled “child and adolescent”
- At least 12 ECTS in psychopathology to access a postgraduate training program in psychotherapy
- **PP** label for **P**sycho**p**athology classes
- Check the exact requirements on the FSP website under postgraduate training (<https://www.psychologie.ch/en/training>)

MAIN PROGRAM MODULES

PRACTICAL EXPERIENCE

What is expected from me?

- Duration: min. 320h
- Possibility to split (for example 4 months at 50%)
- Supervised by academically trained psychologists
- Not necessarily linked to the field of the specialisation

MAIN PROGRAM MODULES

PRACTICAL EXPERIENCE

What do I have to do for this module?

Before starting

- Go to [myUNIFR](#) **before** the beginning of the practical experience to announce it

MAIN PROGRAM MODULES

PRACTICAL EXPERIENCE

What do I have to do for this module?

When it is over

- 1) Provide the required documents **at least 2 weeks before** *submitting the master thesis to the dean office*
 - Written report
 - Certificate of practical experience
- 2) Participate to an exchange group **before** *defending the master thesis*

MAIN PROGRAM MODULES

PRACTICAL EXPERIENCE

Follow the procedures and respect the deadlines

Information: <https://www.unifr.ch/psycho/fr/etudes/stages/>

Contact: marco.gemmiti@unifr.ch

Email soon!

MAIN PROGRAM MODULES

MASTER THESIS (MASTER EXAM)

A) Fall semester

1. Topic selection
2. Topic distribution

B) Winter exam session

Check the requirements for starting the Master thesis

- Validation of at least 6 ECTS in the module “Methods in Psychology”
- Validation of the complementary program (if any)

C) Spring semester

If the requirements are fulfilled

- Start of the *research colloquium*
- Start of the master thesis

MAIN PROGRAM MODULES

RESEARCH COLLOQUIUM

- At least 2 semesters
- Mandatory
- Starts in Spring
- Explanations regarding the master thesis
- Definitive failure ⇔ 1 topic change

SPECIALISATION PROGRAMS

SPECIALISATION PROGRAMS

SPECIALISATION IN CLINICAL & HEALTH PSYCHOLOGY

MODULES

Intervention &
diagnostics in
CHP

1 class labelled **Diagnostics**

1 class labelled **Psychopharmacology**

ACADEMIA, HEALTHCARE and PRACTICE

MAS IN NEUROPSYCHOLOGY - UNIGE

Why complete the MAS?

The MAS is the postgraduate specialization leading to the federal title of Specialist in Neuropsychology (*psychologue spécialiste en neuropsychologie*), qualifying psychologists for specialized clinical neuropsychology practice in Switzerland.

To apply for the MAS you must have:

- A recognized Master's degree in Psychology
- At least 18 ECTS in clinical neuropsychology, covering children, adults, and older adults

MAS IN NEUROPSYCHOLOGY - UNIGE

How to obtain the required 18 ECTS

- The 18-ECTS supplementary program in Neuropsychology at **UNIGE** can be completed during the Master's degree, with some courses potentially recognized depending on the chosen specialisation program.
- Details on the required teaching units and registration procedure are available via the links on the following slides

Cours de la Maîtrise en psychologie prérequis pour l'admission au MAS en neuropsychologie – 2026-2027

Les cours se répartissent dans les domaines suivants :

Enfant (E) ; Adulte (A) ; Personne âgée (PA) ; Fonctions et Méthodes (FM)

Numéro et Titre du cours	Crédits		Domaine			
	ECTS	E	A	PA	FM	
751116 Neuropsychologie de l'enfant et de l'adolescent	3	E				
751704 Accompagnement et intervention en psychologie clinique des situations de handicap	3	E			FM	
751707 Approche neuropsychologique et clinique des syndromes génétiques dans une perspective lifespan	3	E				
751708 Evaluation des troubles du développement chez l'enfant et l'adolescent	3	E				
751110 Neuropsychologie clinique de l'adulte	3		A			
751135* Evaluation en neuropsychologie clinique de l'adulte	3		A			
751131 Regards croisés sur la neuropsychologie clinique de l'adulte	3		A			
751123* Rééducation en neuropsychologie clinique de l'adulte	3		A			
75400 Neuropsychologie du langage chez l'adulte	3		A		FM	
751136 Neuropsychologie clinique intégrative des affections démentielles	3			PA		
751122* Questions approfondies en neuropsychologie clinique des affections démentielles	3			PA		
751200 Neuropsychologie de l'habitude	3		A	PA	FM	
751111 Gérontopsychologie générale et clinique	3			PA		
751204 Neuropsychologie cognitive	6				FM	
751035 Neuropsychologie des émotions et neurosciences affectives	3				FM	
751118 Evaluation des interventions dans les domaines de la psychologie clinique	3				FM	
751003 Neuropsychologie de la musique	3				FM	
751208 Systèmes de mémoire	3				FM	

Courses required for
admission to the MAS in
Neuropsychology – 2026–2027

[Link](#) to this document

*Ces cours font partie du module approfondi « Approfondissement en neuropsychologie clinique » du plan d'études de la Psychologie clinique intégrative. Ils ne peuvent être suivis que par les étudiant-es inscrit-es dans ce module.

18 crédits doivent être acquis (avec une note minimale de 4) dans cette liste, dont un minimum de 3 crédits dans chacun des 4 domaines.

Certains cours appartiennent à plusieurs domaines, par ex. le cours 751704 appartient au domaine E et FM. Mais dans le calcul des 18 ECTS, un cours ne doit compter que pour un seul domaine.

Le domaine Fonctions & Méthodes regroupe des enseignements axés sur des fonctions (mémoire, langage, émotions...) ou sur des méthodes en particulier (évaluation, rééducation, évaluation des interventions), pas nécessairement restreints à une tranche d'âge.

Pour les **demandes d'équivalence**, veuillez remplir le « formulaire de demande d'équivalence » disponible sur le site, et le renvoyer à la conseillère académique (adresse dans le formulaire).

18 credits must be obtained (with a minimum grade of 4) from this list, including at least 3 credits in each of the 4 areas (adults, children, older adults, functions and methods).

Please read carefully this document

Procédure d'inscription à un-des enseignement-s dispensé-s par la Faculté de psychologie et sciences de l'éducation (FPSE) de l'UNIGE et validation des crédits acquis pour les étudiant-es hôtes UNIL – UNINE - UNIFR

1. L'étudiant-e consulte le programme des cours en ligne (<https://pgc.unige.ch/cursus/programme-des-cours/web/>). Tous les cours sont accessibles SAUF :
 - les travaux pratiques
 - les séminaires
 - les cours de **tous les modules approfondis** de la Maîtrise universitaire en psychologie
 - le cours 751112 Psychopathologie cognitive
 - le cours 751117 Maladies chroniques, situations de handicap et sexualité
2. Muni d'une attestation d'immatriculation de son université et de sa carte d'immatriculation **en format PDF**, l'étudiant-e s'inscrit auprès du Service des admissions comme étudiant-e externe/hôte. Cette démarche se fait en ligne et doit être effectuée avant de pouvoir s'inscrire aux enseignements.
<https://admissions.unige.ch/kayako/index.php?/Tickets/Submit/RenderForm>
3. Une fois immatriculé-e, l'étudiant-e procède à son inscription aux enseignements durant la troisième semaine du semestre via le portail UNIGE, en complétant le formulaire d'inscription en ligne (IEL) dont il reçoit le lien le lundi de la 3^e semaine dans sa boîte étudiant-e. Une inscription à un enseignement entraîne automatiquement une inscription à l'examen lors de la session qui suit la fin du cours.
4. L'étudiant-e doit également vérifier s'il y a lieu de s'inscrire sur la plateforme Moodle à l'enseignement (gérée directement par chaque enseignant-e pour son/ses cours) afin d'avoir accès à des documents et/ou passer des examens en ligne en fonction des modalités prévues. L'accès à cette plateforme se fait à l'aide de l'identifiant et du mot de passe UNIGE reçu lors de l'immatriculation : <https://moodle.unige.ch/>
5. La FPSE émet un relevé de notes qui est publié sur le portail personnel de l'étudiant-e. Ce relevé est également transmis par la FPSE directement au secrétariat de la Faculté d'origine sous forme électronique.
6. En cas d'échec à un examen, celui-ci est automatiquement réinscrit lors de la session de rattrapage d'août-septembre de la même année académique.

Délai d'inscriptions aux enseignements :
<https://www.unige.ch/fapse/etudiants/calendrier-acad/>

Attention : en cas de conflit horaire lors des sessions d'examen, la Faculté ne peut pas modifier l'horaire établi.

Contact : Mme Valérie Favez, conseillère académique (Valerie.Favez@unige.ch)

Please follow strictly this procedure

MAS IN NEUROPSYCHOLOGY - UNIGE

Which specialization program is the best option for entering the MAS in Neuropsychology (UniGe)?

Cognitive Neuroscience (CNS) → *Best option in terms of credits: 12/18 ECTS from the supplementary program can be validated in the module Advanced studies in CNS*

Clinical Neuroscience → *No courses validated, but if you take the 18 ECTS in Geneva as **additional credits**, you gain a *more complete training* (stronger background in clinical psychology + neuropsychology).*

Developmental Neuroscience → *Up to 6/18 ECTS may be recognized (with agreement, depending on the courses).*

TIME FOR
A BREAK!

The image features a collection of overlapping speech bubbles in various colors: light blue, teal, dark blue, orange, red, and pink. The text "TIME FOR A BREAK!" is written in a white, casual, handwritten-style font across the center of these bubbles. The bubbles are arranged in a way that they overlap each other, creating a sense of depth and movement. The overall composition is vibrant and eye-catching, designed to convey a message of taking a break.

STUDY PLAN

SCHEDULE

Is there a schedule per year?

No, you compose your own schedule according to the current offer and your availability

Is there a minimal amount of ECTS to attend?

No, your goal is to have validated all your ECTS (except for the master exam) before defending your thesis in

- min. 4 semesters
- max. 12 semesters

Part-time

21-30 ECTS

SCHEDULE

Does the list of teaching units change from year to year?

Yes, the offerings vary from year to year. Some TUs are offered annually, others every two years, and some are offered only once. If you are interested in a particular TU, it is advisable to take it when it is available.

There are not enough classes this year to validate the module. What should I do?

There will be sufficient TUs to complete a module over the four semesters of the master's program, which is the minimum duration of study.

SPECIALISATION

Can I change my specialisation?

Yes, it is possible. You need to submit a request to change your course of study on my.unifr.ch if you did not fail your current specialisation program.

Deadline per semester for “consecutive master” [[FR](#) / [DE](#)]

STUDY PLAN

TEACHING UNITS (TU)

Where can I find the TU?

On the teachings page (F / D):

<https://www.unifr.ch/psycho/fr/etudes/enseignements/>

<https://www.unifr.ch/psycho/de/studium/lehrveranstaltungen/>

STUDY PLAN

TEACHING UNITS (TU)

Child and adolescent
Diagnostics
Psychopharmacology

Are there mandatory TU?

Methods in Psychology

- Statistical Methods for Master Studies
- Research Methods for Master Studies
- Evaluation of Psychotherapeutic Interventions

Other modules

- Mandatory TU for a module have a specific label on the teachings page [[F/D](#)]
- “Statistics with R” in the module “Advanced studies in cognitive neuroscience”

STUDY PLAN

TEACHING UNITS (TU)

Where is the description of the modules?

- In the corresponding study plan
- On the web page of each specialisation (under “Structure”)

TEACHING UNITS (TU)

How can I register for TU?

On my.unifr.ch under “Cursus”/”Studium”

There you find two entries:

- one for the main program
- one for the specialisation program

STUDY PLAN

TEACHING UNITS (TU)

Deadlines for registration:

STUDY PLAN

EXAMS

*I have special needs.
Can I benefit from some adjustments?*

This is a university-level decision

You should have already mentioned it during the admission process

In case you need more information, please look at this page:

<https://www.unifr.ch/campus/en/support/learning-and-success/studies-and-disability.html>

FAILURE

Can I fail the main program?

Any of the following points

- A mandatory TU is not validated (this includes the TUs of any compensation program)
- Two non-mandatory TU are not validated
- The diploma is not obtained within 12 semesters

Consequence: exclusion from the master program

→ *No grade compensation*

FAILURE

Can I fail the specialisation program?

Any of the following points

- A mandatory TU is not validated
- Two non-mandatory TU are not validated

You can fail *once* a specialisation program and select another

Two failed specialisation programs ⇔ Exclusion from the master program

COMPLEMENTARY PROGRAM (UP TO 30 ECTS)

- To validate **before starting the master thesis**
- Failure to this program = Failure to the master program

Advise: to be validated as soon as possible!

MOBILITY

*I want to see the world for one semester
What do I have to do?*

Overall

- Follow the mobility procedure
 - Of the [University](#)
 - Of the [Department of Psychology](#)
- Check the [deadline](#) for the different programs

STUDY PLAN

MOBILITY

I want to see the world for one semester...

Check the ECTS recognition procedure

- 27 ECTS max
➔ fill the [online form](#)
- Contact the *study advisor* at least 2 *months* before the deadline

Why so early?

- For the advisors to validate the recognition table
- Many steps to fulfil (anticipate potential issues)

Module	Max ECTS
Methods	0
Advanced studies	9
Psychopathology	6
Specialisation 1	6
Specialisation 2	6
Total	27

MOBILITY

Can I validate classes at another Swiss University and ask for recognition?

Two possibilities

- Single classes
- 1-semester mobility stay

Same procedure as for mobility outside Switzerland

Single classes

Follow the procedure (and *deadlines!*) to be admitted as a guest student at the host University (see [mobility page](#))

QUESTIONS ABOUT THE MASTER PROGRAM

*I have questions regarding the master program.
What can I do?*

- 1) Check the study plans ([FR](#) / [DE](#))
- 2) Check the [FAQ](#)
- 3) Overall questions: psy-master-counseling@unifr.ch

Personal meeting on demand

QUESTIONS ABOUT THE MASTER PROGRAM

*I have questions regarding the master program.
What can I do?*

Questions specific to a field

- Clinical & Health psychology FR: [Tanya Tandon](#)
- Clinical & Health psychology DE: [Peter Wilhelm](#)
- Developmental psychology: [Christophe Fitamen](#)
- Cognitive Neuroscience: [Anne-Raphaelle Richoz](#)
- Work and organisation: [Sharon Guardini](#)

Master

Informations générales

Les enseignements du Master sont conçus pour permettre un approfondissement théorique des divers domaines. L'accent est mis sur l'acquisition de méthodes, la maîtrise de notions scientifiques, leur application dans divers champs d'activités (hôpital, entreprises, écoles, institutions, recherches) ainsi que sur l'acquisition de compétences pratiques.

Cette formation permet aux diplômés une entrée idéale dans les différents champs professionnels de la psychologie, comme la psychologie clinique et de la santé, la psychologie du personnel, la psychologie scolaire, ou l'ergonomie. En outre, elle est une base idéale pour la collaboration dans des projets de recherche et/ou pour la préparation d'une thèse de doctorat. Les études de Master à Fribourg se distinguent par l'encadrement individuel offert aux étudiantes et étudiants lors des enseignements et de la réalisation du mémoire de Master. Le nombre de participants aux unités d'enseignement n'est généralement pas limité. De plus, la vaste palette d'enseignements permet une grande flexibilité de la formation et de la spécialisation.
