The Faculty of Science and Medicine of the University of Fribourg/Switzerland and the Department of Chemistry invite applications for a tenured position of a

**Professor in Experimental / Physical Chemistry**

We seek an established scholar with a record of excellence in research and teaching, along with a demonstrated track record of extramural funding and successful mentoring of graduate research. Applications are welcomed in the area of experimental chemistry, preferably in relation to the physical chemistry and characterization of interfaces and the departmental focus on materials. The integration of the applicant's research programme into the NCCR Bio-inspired Materials is a requirement. The new professor will teach Bachelor courses (in French and/or German) as well as Master level courses (in English), and maintain an active research programme.

The closing date for applications is **Monday 15 January 2018**. More information at [www.unifr.ch/science/positions](http://www.unifr.ch/science/positions).
