

Program Day of Cognition

Wednesday, October 2 2019

PER09 1.100

MORNING

- 9:30 Effects of attentional refreshing and associative relatedness on recollective and non-recollective recall
Fiona Laura Rosselet-Jordan (Developmental Psychology Lab)
- 9:50 Acute alcohol intoxication and expectations reshape the spatiotemporal functional architecture of executive control
Farfalla Ribordy (Laboratory for Neurorehabilitation Science)
- 10:10 Neurocircuits of Blindsight
Michael Schmid (Perceptual Brain Circuits and Plasticity)
- 10:30 Coffee break and posters
- 11:00 Setting the Record Straight: Dynamic but not Static Facial Expressions are Better Recognized
Anne-Raphaëlle Richoz (Eye and Brain Mapping Lab)
- 11:20 CCCP - cardiac cycle and conscious perception
Juliane Britz (Dept. of Psychology; Dept. of Medicine, Neurology Unit)
- 11:40 Basal Forebrain Parvalbumin neuronal activations induce Default Mode Network behaviors
Laura Lozano Montes (Visual Cognition Lab)
- 12:00 The neuromodulation of brain activity to improve associative memory
Sven Passmann (Cognitive Biopsychology and Methods)
- 12:20 Lunch break and posters

Program Day of Cognition

Wednesday, October 2 2019

PER09 1.100

AFTERNOON

- 13:40 Tree Shrews, Rats and Humans: differences and similarities in sleep architecture
Marta Dimanico (Visual Cognition Lab)
- 14:00 Individual fixation biases generalize from free viewing to visual search
Tamara Alsheimer (Applied Face Cognition)
- 14:20 Does Familiarity Influence Attentional Refreshing in Working Memory?
Philippe Schneider (Developmental Psychology Lab)
- 14:40 Small break
- 15:00 Anticipatory network changes mediate the attentional selection of relevant visual stimuli
Mattia Pagnotta (Perceptual Networks Group)
- 15:20 Could the retrocue effect rely on visual imagery?
Luísa Superbia-Guimarães (Developmental Psychology Lab)
- 15:40 Neural face representations are tuned to eye movements
Lisa Stacchi (Eye and Brain Mapping Lab)
- 16:00 Annual Meeting of the Fribourg Cognition Center
