

## Post-doc in Communication and Media Sciences with competences in quantitative methods

The Faculty of Economics and Social Sciences and Management (SES) of the University of Fribourg, Switzerland, hires a post-doc in the Department of Communication and Media Sciences (DCM). The successful candidate will provide teaching and research in the fields of quantitative methods, as well as in at least one of the following areas: strategic communication, media use and effects, political communication, media systems, media economics.

The DCM provides an exceptional research environment based on interdisciplinary, innovative and dynamic collaboration at the intersection of communication, media, economics and management. With an emphasis on rigorous training and high-quality research, the SES Faculty provides an ideal environment to consolidate a career dedicated to research.

Information	
Starting date:	September 1 <sup>st</sup> , 2022 or to be agreed
Duration:	5 years (one-year trial period; renewable 4 years)
Salary:	Full-time position; the salary will be set in accordance with the guidelines of the Uni- versity of Fribourg
Tasks:	The post-doc provides four hours of teaching per semester at the level of the Bachelor in Communication and Media Sciences and, if necessary, the Master in Business Com- munication.
