

3rd Workshop of the Swiss Network on Public Economics (SNoPE) Call for Papers

Main information

The 3rd workshop of the [Swiss Network on Public Economics](#) will be organised by [KOF](#) Swiss Economic Institute at ETH Zurich and the [Chair of Public Economics](#) at the University of Fribourg on Friday, 18 March 2022 (ca. 8.45 a.m. – 6.45 p.m.) at ETH Zurich. Depending on Covid-19 regulations at that point in time, we might be able to arrange meetings in smaller groups according to joint research and policy interests. You can find the program on the [event page](#). Do not hesitate to contact us with your ideas and suggestions at SwissPublicEcon@kof.ethz.ch. [Submission deadline](#) for presentation: 31 January 2022. See below for details on the submission process. [Deadline for registration](#) without presentation: 28 February 2022. [Registration form](#).

Format of the Workshop

The workshop will consist of three parts with the Chatham House Rule applying throughout the workshop. In the first part, participants from academia and the public sector will present their **planned and ongoing research** to gather feedback from colleagues.

The second part consists of two applied economic policy sessions organized by the Federal Department of Finance on "**The OECD/G20-Global Minimum Taxation for Multinational Enterprises: Policy Options for Switzerland**" and by the Federal Office for Statistics and the Federal Social Insurance Office on "**Die Steuerdatenerhebung als Pilotprojekt des Programms Nationale Datenbewirtschaftung (NaDB)**".

The plenary discussion in the third part is on "**Mindestlöhne in der Schweiz**":

- Introduction by Ursina Jud (SECO, State Secretariat for Economic Affairs),
- **Keynote (in English) by Attila Lindner** (University College London), and
- Presentation by Conny Wunsch (University of Basel).

Goal of the Network

The goal of the network is to connect researchers working on topics related to Swiss public economics (including public finance and public policy) and/or an interest in Swiss data. The network aims to strengthen the ties between academics and practitioners at universities, public administration, the Swiss National Bank and private institutions. Actors of the civil society as well as the media are welcome to join our network and its activities - please note that all discussions are held under the Chatham House Rule.

Submit your research for presentation *or* Register as participant without presentation

We invite academics and practitioners working on questions broadly related to Swiss Public Economics to submit their planned, ongoing, or recently finished research for presentation at the workshop. To submit, please fill in this form and send an email with a PDF version describing your research (full paper or extended abstract) to SwissPublicEcon@kof.ethz.ch. We will notify your acceptance by mid-February.

Attending the event is possible without presentation, but registration is required. Please register here. The organizers at KOF will confirm your participation by the beginning of March at the latest.

Costs

Participation in the workshop is free.

Workshop organizers

Vera Eichenauer (KOF ETHZ), Mark Schelker (University of Fribourg), and Jan-Egbert Sturm (KOF ETHZ)

Your feedback and ideas are welcome!

Please do not hesitate to contact us with your ideas and proposals (e.g. ideas for panel topics or your interest to participate in any of the suggest panels).

The success of the workshop and the network depend on your input!

We are very much looking forward to discussing with you in March 2022!

Important dates

Submission deadline for presentation: **31 January 2022**

Confirmation of acceptance until mid-February 2022

Deadline for registration: **28 February 2022**

Confirmation of participation in the beginning of March 2022

Workshop date and location: **18 March 2022 at KOF Swiss Economic Institute - ETH Zürich**
