Feel at ease with our support

Logistics Support

We ensure you get the right visa, arrival pick-up information before your experience and departure instructions post-experience.

Clear job description

We accompany you to the workplace on the first day, ensure your job description and goals are clear, and working hours/duration align to the initial description.

Safe living conditions

Life and health insurance is mandatory for taking part in AIESEC. You will get information about accommodation and basic living costs.

Learning experience

We set clear expectations, provide cultural preparation and facilitate learning spaces before and during experiences.

Sample Projects

The participants will take place in volunteering projects in different countries. Those are contributing to one of the 17 Goals for Sustainable Development.

Planet Heroes

In this project in **Vitoria in Brazil** the participants are working with children to educate them about how to deal sustainably with their natural environment.

Project Activities:

- Planning of course content together with the NGO.
- Delivery of classes with kids in elementary-school-age.
- Creation of a project report.

Lead Nature in Italy

The project is related to the environmental safeguard and to local flora and fauna protection. Volunteers will be engaged on scientific research activities, manual works and activities related to Environmental Education.

Project Activities:

- Planting & ecological days, construction of animal shelters
- Fire surveillance: provided of telescopes, the volunteers will check the area
- take part on events about climate education
