

# *Curriculum Vitae of Dionys Baeriswyl*

## *Personal details*

Birth: Geneva, 23 June 1944                      E-mail: dionys.baeriswyl@unifr.ch  
Address: Département de physique              Phone: +41 26 300 9141  
          Université de Fribourg  
          Chemin du musée 3  
          CH-1700 Fribourg

## *Degrees/Nominations*

1969              Diploma in theoretical nuclear physics, University of Basel  
1973              Ph. D. degree at the University of Geneva, thesis on the theory of elementary excitations in superfluid helium (supervisor C. P. Enz)  
1985              Venia legendi at the ETH in Zurich, thesis on theoretical aspects of conducting polymers  
1989              Full professor of theoretical physics, University of Fribourg  
2012              Professor emeritus, University of Fribourg  
2013              Distinguished Professor, IIP Natal

## *Work experience*

1973-1982        Staff member, RCA Laboratories, Zurich  
1982-1989        Free-lance physicist, extended visits at various institutions, the Max-Planck Institute in Stuttgart, the H. C. Ørsted Institute and NORDITA in Copenhagen, the research centers of Brown Boveri in Baden and of IBM in Rüschlikon, the University of Southern California in Los Angeles, the Center for Nonlinear Studies in Los Alamos, the ICTP in Trieste, the ETH in Zurich, the Institute for Scientific Interchange in Torino, among others.  
1989-2000        Director of the Institute of Theoretical Physics  
2002-2004        Dean of the Faculty of Sciences  
2007-2009        President of the Department of Physics
