Where to search for additional resources

- Startupticker has a good search engine for prizes and seed capital: <https://www.startupticker.ch/en/assets>
- Innovaud as well: <https://www.innovaud.ch/en/services/our-services/innovate-in-the-canton-of-vaud/financing>

Innosuisse funds science-based innovation

<u>Projects with implementation partners</u>	<u>Projects without implementation partners</u>	<u>Voucher for preliminary studies</u>
<p>Science-based innovation projects carried out by companies (SMEs) with research partners.</p> <p><i>Rolling Applications online</i></p>	<p>High-risks projects by researchers that do not have yet an implementation partner*.</p> <p><i>Rolling Applications online</i></p>	<p>For companies (SMEs) to test feasibility with a research partner (CHF 15'000).</p> <p><i>Rolling Applications online</i></p>
<u>Consulting at the start of projects</u>	<u>Assisted patent searches</u>	<u>BRIDGE</u>
<p>Innovation mentors to help you start your innovation project.</p> <p><i>Basic support</i> (novel ideas) <i>Application support</i> (for grant preparation or for finding partners) <i>Revision support</i> (for revising rejected requests)</p>	<p>At the Swiss Federal Institute of Intellectual Property you can search the patent literature together with an expert.</p>	<p>2 options: one for young and one for experienced researchers for projects at the intersection of basic science and innovation.</p>

*transfer to the private economy is expected (for ex. future company building or transfer to company)
