Seminar list for 2022

Online at 12h00 via teams

Take the opportunity to learn more about **flow Cytometry and new related technologies**.

A good way to refresh or gain knowledge and perform your experiment in a more efficient way! 😊

2021

- **4 November:** Tips for your experiment: **1**) Panel design for multi-parameter Flow Cytometry
- **16 December:** Tips for your experiment: **2**) The use of correct controls and compensation in Flow Cytometry

2022

- **7 February:** Tips for your experiment: **3**) Standardization of your experiment to compare over time
- **21 March:** AURORA: our new full-spectrum analyzer
- **02 May:** New technologies close to Flow Cytometry, an overview: Imaging cytometry, CytoF, Full Spectrum, Multi-Omics Sequencing,...
- **13 June:** How to start with high dimensional data in flow cytometry (using FlowJo)

No need to register, each seminar will be advertise a week in advance with a Teams link that you can use to connect. All information will be available on [our website](#).

Don't hesitate to advertise these dates around you! Everybody is more then welcome.
