

# Erfahrungsbericht

|                          |   |  |
|--------------------------|---|--|
| Allgemeine Informationen | Verfasser                                   | noelle.moser@unifr.ch  |
|                          | Art der Mobilität                           | SEMP   |
|                          | Zeitpunkt                                   | SA 2018  |
|                          | Studiengang                                 | European Business  |
|                          | Studienstufe während des Aufenthaltes       | Master   |
|                          | Ausgewählte Universität                     | Nord University, Bodø, Norway  |
| Vor dem Aufenthalt       | Einschreibung                               | A learning agreement for the faculty of Economics and Social Sciences in Fribourg, the international office in Fribourg as well as the international office in Bodø had to be filled out.  |
|                          | Vorbereitung                                | Nord University offers guaranteed student housing for all exchange students when you apply within a certain deadline. So, this didn't take too long. However, it took some time and several e-mails to sign up for classes.  |
|                          | Visa, andere Formalität                     | -  |
|                          | Ankunft im Gastland                         | The University offers a pick-up service at the airport. The semester starts with an orientation week where you get to know the University, Bodø and the other students.  |
| Vor Ort                  | Allgemeine Eindrücke des Aufenthaltes       | All in all, it was a great experience. I met a lot of nice people, got to learn a new language and to travel across the country. However, getting to know Norwegians is not easy in the beginning as they're rather introverted.   |
|                          | Unterkunft                                  | The University offers different kinds of accommodation that certainly all have their pros and cons. I lived at Mørkvedlia student park which is located in walking distance from the University. I had my own room with bathroom and shared the common kitchen with 14 other students. |
|                          | Kosten                                      | Similar to Switzerland, however some things like for example alcohol are much more expensive due to the Norwegian tax system.  |
|                          | Gastuniversität : allgemeine Informationen  | Rather small and familiar University.  |
|                          | Gastuniversität : akademische Informationen | The University offers some interesting classes which are a nice addition to the classes I took in Fribourg. The exams last about 4-6   |

hours and most classes include a midterm paper. There's the possibility to take a Norwegian language class.

Gastland

Summer in Northern Norway is definitely not as warm as in Switzerland, but you get much more daylight during summer. It's the perfect time to go on a hike and to explore the beautiful landscapes Norway has to offer. In winter however days get really short but seeing the northern lights from time to time compensates for the lack of daylight.

Freizeit, Studentenleben

A lot of different activities, trips, parties and other events were organized. There were also many opportunities to do sports nearby the University and of course the surrounding nature is perfect for hiking, skiing, fishing, etc.
