

CIAS

Corvinus Institute for
Advanced Studies

CORVINUS UNIVERSITY
OF BUDAPEST

A university-based institute
for advanced studies
in the heart of Central-Europe,
in Budapest, Hungary.

Corvinus University is a Hungarian research university oriented towards education, offering educational programs in business administration, economics and social sciences. The university accepts students in three faculties and offers courses leading to degrees at the bachelor, master and doctoral level, both in Hungarian and English languages.

Corvinus University enjoys a market leader position in all segments its profile covers.

Corvinus was listed in the top 50 of the Financial Times European Masters in Management rankings.

Based on Eduniversal ranking Corvinus was the 2nd best Business School in the CEE region.

The leadership of Corvinus University of Budapest has decided to establish the Corvinus Institute for Advanced Studies – Central Europe in Global Context with the aims to reach a higher level of the University's research performance and significantly improve its international potential. CIAS has been established in 2018 in affiliation with Corvinus University of Budapest. CIAS provides research fellowships for scholars with outstanding credentials in the following grant categories:

- **invited distinguished research fellow,**
- **senior research fellow,**
- **junior research fellow.**

The fundamental goal is to create an inspiring and creative intellectual community. Scholarships are granted in a process based on thematic calls for application. This contributes to CIAS' own intellectual profile in harmony with the goals of Budapest, Hungary and Central Europe.

The operation of CIAS is based on „centers“ and projects. The first such center in operation is the Social Futuring Center of Corvinus University (www.socialfuturing.com) which was founded in February 2017 to implement the research project „ConNext 2050“ working on developing a global Social Futuring Index – SFI. Other centers will be established around research themes of the seven doctoral schools of the University (International Relations Multidisciplinary Doctoral School, Doctoral School of Political Science, Doctoral School of Sociology, Doctoral School of Social Communication, Doctoral School of Business Informatics, Doctoral School of General and Quantitative Economics, Doctoral School of Business and Management) which are the key areas of the research activities of Corvinus University. The fellows will be hosted by the Corvinus Institute for Advanced Studies and an adequate department or research team of the University.

- **The working language is English.**

The application process is managed by Corvinus Institute for Advanced Studies. Grants are made to citizens of any countries for a variety of research and educational activities (primary advanced research and university teaching).

The CIAS awards provide international travel for the grantee to and from the host institution (CIAS) in Budapest and limited accident and sickness insurance. CIAS fellows receive stipend provided by CIAS. Most grants are awarded for a period of one or two semesters (5 or 10 months) and in special circumstances, may be extended for limited periods.

CIAS is directly under the academic supervision of the Rector of Corvinus University of Budapest.

Among the first fellows CIAS hosted Mr. George Friedman Ph.D. as an invited research fellow who is a member of the research team for developing the Social Futuring Index (SFI). Mr. George Friedman is a U.S. geopolitical forecaster, and strategist on international affairs. He is the founder and chairman of Geopolitical Futures, an online publication that analyzes and forecasts the course of global events. He received a Ph.D in government at Cornell University. Friedman has a new book titled *The New American Century: Crisis, Endurance and the Future of the United States*.
