

Slovenia international Model United Nations

PRESS RELEASE

Ljubljana, May 2015

For immediate release

## Only a few months left until the United Nations simulation

Announcement

**Ljubljana, May 2015:** The Association for Promotion and Development of International Relations **MEOS** continues with intense preparations for the 8th **SiMUN 2015** project. SiMUN is a Slovenia United Nations simulation which is going to take place from **22<sup>nd</sup> to 26<sup>th</sup> of September 2015** in Ljubljana. With every year, the project gains more and more credibility and international recognition. Approximately 80 young delegates from all over the world participate in the conference each year. They are always eager to discuss current international issues, to encounter different cultures and to make new friendships.

The applications for the so called Chairs or Heads of Committees are already closed. However, there is still possible to apply for SiMUN Crisis Team. Furthermore, the so called early bird applications with lower fee for the delegates in the **Security Council, Human Rights Council, African Union** and for the **Press Team** are already open as well. The press team consists of three journalists, an editor and a photographer and their main tasks are to report on the conference and to create the newspaper called SIMUN TIMES. **Early bird** applications are open **until 31<sup>st</sup> of May**. Then, the new round of applications for delegates and journalist is going to open on **8<sup>th</sup> of June** and is going to last until **30<sup>th</sup> of June**.

Last year's accommodation in the renovated Hall D for the foreign participants turned out to be an excellent solution since it is located on Kardeljeva ploščad near the Faculty for Social Sciences where the simulation takes place. Therefore, we decided to accommodate foreign delegates there also this year. Furthermore, due to the fact that we want our foreign participants to get to know not only Ljubljana, but also other parts of Slovenia, we decided to organize an excursion to the Slovenian coast on the last day. Participants will have a chance to visit Piran and explore the beautiful sights of our cost.
