## A WORLDWIDE NETWORK

Founded in 1949, the College of Europe was the first and is one of the most reputed institutes of European postgraduate studies. It relies on a large worldwide network.

The students develop an intensive network thanks to the diversified teaching body and the support of the Careers Office and the Alumni Association, throughout their studies and beyond.

Besides a challenging academic programme, students also undertake stimulating initiatives.

## PROVIDING A VERY SPECIAL AND INTENSE EXPERIENCE

"The European construction keeps changing the history of a whole continent, the lives of hundreds of millions of European citizens and Europe's role in the world. Ever since its foundation, the College of Europe has had the mission to make well selected postgraduate students understand the political, legal, economic and international core issues, challenges and potentials of this unique process. This not for art's sake, but to prepare them for leadership functions requiring a strategic understanding of European issues. The College fulfils this function by constantly adapting its programmes and the composition of its teaching faculty to European developments, by challenging its students' minds with the different perspectives of senior academics and practitioners from over twenty different countries and numerous professional backgrounds, and by providing them with a very special and intense experience of living and working together in an international social and cultural context. If you wish to understand Europe, live it and prepare for a career transcending national borders, then the College of Europe should be your choice."

José Manuel DURÃO BARROSO,  
President of the European Commission

*It is a pleasure to find myself once again in this College, acknowledged to be 'the most European of the institutes of European Studies', and it is an honour, too, to be addressing such an audience, and especially the driving forces of the Europe of tomorrow.* ”
